## SUMMARY

I'm a passionate front-end developer dedicated to crafting intuitive and responsive web experiences. With a focus on HTML, CSS, JavaScript, I aim to transform ideas into clean, efficient code and bring designs to life. I enjoy creating seamless user interfaces and constantly seek to enhance my skills in building accessible and engaging web applications.

## WORK EXPERIENCE

Fresher

## PERSONAL PROJECTS

### Book Library Website

- Developed a responsive multi-page website for a digital book library using HTML5, CSS3.
- Designed and implemented a navigation bar, hero section, book cards, and footer with proper responsiveness.
- Used Flexbox and CSS Grid to make the layout adaptable for desktop and mobile screens.
- Created a user-friendly interface with proper alignment, spacing, and typography.
- Added hover effects, icons, and styled components to improve user experience.
- Focused on clean code structure and semantic HTML for better accessibility.
